Experience

EOC/ECM Developer – STC (Outsourced from Qeema)

Jul 2023 – Present, Riyadh, Saudi Arabia (Remote)

During the Jawwy DT Project, I played a key role in managing and supporting the product catalog system, with a focus on operational efficiency and system integration. My responsibilities included:

- **Product Catalog Management:** Oversaw catalog components using Ericsson Catalog Manager (ECM), ensuring accurate and efficient handling of product data.
- **Technical Support:** Delivered advanced support to maintain system reliability and swiftly resolve critical issues in the L3 layer of support.
- **System Integration:** Contributed to the development efforts, implementing logic to interface with external systems for streamlined operations and improved overall performance.

Software Engineer – Qeema

Dec 2022 – Present, Cairo, Egypt

As part of the Telecom Business Development division, I customized CRM solutions to meet industry-specific requirements and enhance overall functionality. Key contributions included:

- **EOC Development:** Designed and implemented the solution needed for the Jawwy DT project, participated in development and optimization to adhere to the business needs and specifications, performed testing of APIs using mock services and helped with solving issues after delivery.
- **Advanced Application Support:** Provided Level 3 support to ensure optimal performance and rapid issue resolution.
- **Project Contribution:** Played a pivotal role in the successful release of the Jawwy DT project through maintaining the performance and efficiency of EOC/ECM modules used in the project, supporting the client's operation team.
- **EOC Upgrade:** Played a major role in performing the initial upgrade for EOC/ECM from version 20 to version 22, while maintaining the flow of the implementation and integration with other systems, also had an impact on resolving the conflicts between the 2 versions with respect to the implementation of Jawwy DT project.

Software Engineer – Serv5

Oct 2021 – Nov 2022, Mansoura, Egypt

In my role as a full-stack developer, I delivered end-to-end solutions for both local and regional clients, focusing on performance, reliability, and maintainability. My responsibilities included:

- **Web Application Optimization:** Enhanced performance through front-end and back-end improvements.
- **API Integration:** Integrated third-party APIs to support mobile application functionality.
- **Technical Support:** Provided post-sales support to address client needs and ensure smooth deployment.
- **Workflow Automation:** Streamlined development processes by introducing modern tools and frameworks.
- **Code Quality Assurance:** Improved codebase to align with industry standards and best practices.

Education & Courses

Bachelor of Computers and Systems Engineering

Faculty of Engineering, Mansoura University (2014 – 2020)

Knowledge Obtained: Algorithms, Data Structures, Programming Languages, Agile Methodology, Waterfall Methodology, Software Development, Work Ethics, Classic Control Systems, PLC, Embedded Systems, Databases.

Frontend Web Development Summer Training – ITI

Aug 2018 – Sep 2018, Mansoura University

Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, AngularJS.

Development On Creatio Platform

Jul 2025 – Aug 2025, Creatio

Technologies: Creatio No Code, Creatio CRM Development

Creatio Administration and Configuration

Aug 2025 – Sep 2025, Creatio

Technologies: Creatio No Code Development

Technical Skills

Languages & Frameworks

PHP, Laravel, NodeJS, Python, JavaScript, C#, Express.js, Vue.js.

Databases

Oracle DB, Maria DB, SQL, PostgreSQL, MySQL, MS SQL.

Tools

GitHub, GitLab, Jira, Asana, Click Up.

Soft Skills

Communication, Team Collaboration, Problem Solving, Leadership.

CRM Development

Ericsson Order Care [EOC], Ericsson Catalog Manager [ECM], Creatio.

Projects

Laravel Modular Dashboard

Developed a configurable admin dashboard with Laravel Blade templates.

Technologies: HTML, CSS, JavaScript, Bootstrap, Laravel, PHP, Maria DB, SQL.

Laravel GetText Package

Extended compatibility to PHP 8.1 and Laravel 9 for multilingual support.

Technologies: Laravel, PHP.

CSED 2020 Yearbook

Created a memorial website including backend and layout in Laravel Blade.

Technologies: *HTML, CSS, JavaScript, Bootstrap, Laravel, PHP, Maria DB, SQL, PostgreSQL.*

Curey Healthcare App

The graduation project focused on backend API and database systems.

Technologies: *Laravel, PHP, Maria DB, SQL, PostgreSQL.*
